

DANIEL GWIRTZMAN DANCE COMPANY

DGDC is excited to announce its newest platform, a culmination of the Company's interactive educational programming. *Dance With Us* is a library of films designed to teach ways to think and speak about dance with comfort. Geared toward a general viewership, this comprehensive resource demystifies concert dance by explaining the foundational elements of dance and exploring how dance is made. Combining performance and instructional footage, *Dance With Us* hews to the Company's manifesto that everyone can engage with dance. Throughout the fall and winter, glimpses of *Dance With Us* will be released, leading up to the platform's launch in March of 2021.
